

Kelly Batton is our Partner Who Makes a Difference for February 2022. This coming fall it will be 22 years! Kelly started in our district as a paraprofessional in the Special Education Department at SSHS September of 2000. She enjoyed her job and working with students. Then in 2014 she was hired to work in the department's district level office. Her current responsibilities are to help our teachers and school psychologist to ensure that the needed assessments are completed in an effort to determine if a student would qualify to receive services. She makes many phone calls, emails, and text messages to parents to coordinate some of the assessments and evaluation meetings. She also takes meeting notes. It might sound easy, but it is a very complicated process. She is a great benefit to our district and department. Thank you Kelly for all you do!
